

Hopkinsville Kentucky.

CHAS. M. NEACHAM, Editor.

TUESDAY, JANUARY 15, 1889.

HOPKINSVILLE, KENTUCKY.

A free and growing city of 8,000 inhabitants situated in a country of 40,000. The Louisville and Nashville has two lines of railroad in the county and the people have recently voted air to be a new road. Largest tobacco growing county in the world. Wheat, corn, hay, coal, live stock and fruits produced for export in large quantities. The city has four banks with an aggregate capital of \$1,000,000. A planing mill and wagon factory, three carriage factories, line factories, tobacco warehouses, five foundries, three livery stables, iron works, steam laundry, ice factory, two large flouring mills in the city and several in the country. Splendid driving park and fine opera house. Five churches, two colleges, a high school and the finest system of public schools, white and colored, in the State. Western Kentucky Lunatic Asylum, with a population of 600, two miles east of the city. A fine fire department and a company of State Guards. Little River furnishes an adequate supply of water for all purposes. Real estate low and rents cheap. The opening for winter ball, pack, packing establishments, fruit canneries, and many other enterprises. A climate mild and invigorating and exceedingly healthful.

Senator Cullom, of Illinois, has been elected for another term.

The Union County Herald, Bol. Thomas' new paper, will appear in Caseyville in about two weeks.

Osgoodly, the writer of the Murkison letter, is after an office on the ground of "services rendered."

The Herald says the lack of street lamps, the hogs, the old fogies and aristocrats are killing Russellville.

Harris has a strong lead in the Tennessee Senatorial fight. Harris had 46, Adkins 27, and Savage 9 votes on the first ballot.

The women are gradually coming to the front. There are now in this country 75 female lawyers, 2,492 doctors and 165 preachers.

The Niagara Falls suspension bridge was carried away by the storm of last week. The loss was about \$500,000. The bridge will be rebuilt at once.

Seven Mormon missionaries, who were seeking converts near Fayetteville, W. Va., were notified that they would be tarred and feathered unless they left. They departed.

The Princeton Courier has a corps of country correspondents of which it should be proud. The last issue contained ten news letters from every section of Caldwell county.

Two large sections of Niagara Falls broke away and fell last week with a noise resembling an earthquake. The effect was to make an angle where the horse-shoe had been.

Owen Brown, son of John Brown, whose body lies mouldering in the tomb at Pasadena, Cal., last week, aged 74 years. He was the last survivor of the Harper's Ferry affair.

A father and son have just married sisters in Hardin county and the Elizabethtown News man wants to know what relationship the offspring of the two couples will bear to each other.

A little colored boy, thirteen years old, is preaching in Perry county, Ga., and surprising the natives with his eloquence and knowledge of the Scriptures. He draws immense crowds.

The Anchorage Asylum, which was for a number of years run on a very extravagant scale, is now being conducted economically and efficiently under the new Superintendent, Dr. W. J. Byrne.

The editor of the Menefee Courier, at Frenchburg, drops his poetry and gets on the following:

Beats on his wife a time
Is the man who would if he could—but can't
Get married a second time.

The Voice, the Prohibition organ, claims that its mailing list was stolen and delivered to the Republican National Committee during the late campaign, and it threatens to prosecute Quay to Clarkson for receiving stolen goods.

Editor Gaines, of the Clarksville Progress, has hit upon a novel plan to increase the population of his town. Instead of advocating large families, like Bonaparte, or holding out inducements to encourage immigration, like the Kentuckian, the Progress is loudly demanding that the corporate limits be extended far enough to increase the population to 10,000. As the latest census reports show the population of Clarksville to be 3,850, and that of the whole civil district of Clarksville but 7,313, the question very naturally comes up—where is the population to come from? The same authority gives the whole of Montgomery county but 23,481 inhabitants and it will take something more than one-third of these to satisfy this demand of Clarksville. In her eagerness to keep pace with Hopkinsville, Better try some other plan, neighbor. Call a meeting of your old bachelors and remind them that the census of 1880 will soon be taken. If you could get one hundred of them to marry girls in other towns, don't you see how Clarksville would gain a hundred inhabitants. Suppose you get an example of this kind yourself, instead of trying to have half your county incorporated under the name of Clarksville.

A paragraph is going the rounds of the press, credited to a Hopkinsville paper, in which the statement is made that hell ranks ahead of Hopkinsville in the matter of pavements. We doubt if this statement ever appeared in a Hopkinsville paper, but it calls attention to the fact that we have in our midst a class of croakers who can never see any good in Hopkinsville. Nothing ever pleases them, and the streets especially receive their unstinted criticism and the council is continually admonished to pay more attention to street improvements.

These fault-finders who are so fond of complaining about Hopkinsville's streets, simply because some back street has not been meted or some alley has a few muddy spots in wet weather, ought to live awhile in towns that have no macadamized streets at all. The truth is there is not a city anywhere of 10,000 inhabitants or under that has better streets than Hopkinsville. Nearly every important street in the city is meted and paved and has good stone crossings. The city expends something like \$4,000 a year for street improvements and the result is that four progressive little cities have a better system of improved thoroughfares than many cities of 100,000 inhabitants. Don't misrepresent or run down the town because there is a muddy place on some obscure alley. Remember that we have public improvements that are the envy of many less favored cities, and should be the pride of every man in Hopkinsville. Advertise our advantages and not our trivial faults that a few dollars will correct.

Berea College, near Richmond, Ky., is an institution where both sexes, whites and blacks, are mingled together in one school, without social distinction. Most of the students are colored, but a few whites from the mountain sections of the state and from other states are attending the school this year. Last week ten white boys separated themselves and established a white table in the dining room. A colored boy undertook to appropriate one of the ten seats and eat with the white boys, which brought on a serious row, later in the day, which at one time threatened to lead to bloodshed. The matter was finally referred to the faculty who ruled that the colored boy should hold the disputed seat, as the principles of the school forbade any distinction of a social character.

The Supreme Court of West Virginia has sustained the claim of G. G. R. Republican, to the Governorship, by deciding that the disputed Kanawha district should be counted, which elects him by 106 majority. The State Senate has been unorganized pending this action of the courts.

The Somerset Republican, like the Paducah Standard, resolves with the new year to follow the example set by the Kentuckian and pay less attention to politics and more to business.

Walker Blaine, son of Jas. G. Blaine, broke his leg while alighting from a cab in Washington, Saturday.

Mrs. Sarah Jane Whiting will be married at Philadelphia March 27, for the murder of her two children.

A Costly Dress. A prominent member of the Peter Baker company, to appear at the Opera House on the 24th, is Mrs. Baker, who retains on the stage her maiden name, Miss Marie Morosini. As a matter of special interest to lady readers the fact is noted that the costumes of the Baker troupe are said to have cost over \$10,000, and among the rich and beautiful dresses worn by the ladies of the company is one of Miss Morosini's, which the Chicago Times describes as follows: "It was made of satin, with a long, flowing skirt, and a bodice of lace, and a train of tulle, and a bouquet of roses to the left of the skirt, and a second bouquet to the right. The back is a kind of princess robe, fastened to the hip in an irregular series of shells. The bodice is cut in a V shape and has a high collar, and is carried to the waist over the shoulders and is carried to the waist with several big lace shells, drawn to the figure by a sash draped in such. The sash falls on each side and is fastened by roses. The sleeves are short and lacy, with a fringe of lace." Let the ladies of the troupe be careful.

MATRIMONIAL.

TANDY-HICKMAN.

This afternoon at 4:15 o'clock Mr. Wm. T. Tandy, of the City Bank, and Miss Mattie Hickman, youngest daughter of Dr. L. B. Hickman, will be married at the bride's home on Sixteenth street. Rev. W. L. Nours, of the Ninth street Presbyterian Church, will perform the ceremony. Only a limited number of intimate friends and near relatives will be present. The newly married couple will immediately take the 5 o'clock train for Northern Kentucky, where they will spend a week visiting relatives of the bride. Upon returning they will board at Dr. Hickman's until Mr. Tandy can build a residence upon his handsome lot on the corner of Clay and Sixteenth streets.

Saturday's Nashville American: "Mr. Francis Riley and Miss Lizzie Muir, of Hopkinsville, Ky., were married in the Maxwell House parlors yesterday afternoon at 2 o'clock by Rev. Mr. Sewell. Miss Nannie Barnes, of Hopkinsville, accompanied them here." The parties above mentioned are from Allensville instead of Hopkinsville.

NEW TOBACCO EXCHANGE.

A Much Needed Building Which Should Soon Be Built.

A leading broker and member of the Commercial Club, impressed with the present importance of the Hopkinsville tobacco market, and with the belief that the arrival of the Ohio Valley railroad will make a large and productive territory a feeder of this market, suggests the erection of a handsome, substantial and commodious Tobacco Exchange to meet the wants of warehousemen, brokers and farmers; a building whose dimensions and general aspect should be more in keeping with the handsome store-houses on Main street, and with the local market of the largest dark tobacco growing county in the Union. At a recent meeting of the Commercial Club the suggested improvement was the subject of an earnest and protracted conversation and received a hearty and unanimous approval. It is commended to the public as an enterprise deserving to be pushed to completion.

The tobacco market of Hopkinsville has long since outgrown the humble little frame structure on Clay street. Every warehouseman and broker is ashamed of the narrow quarters in which he is crissed during sales, and where the waiting farmer has, if possible, still fewer conveniences—that is if there can be a comparison of conveniences in a house which has no convenience for anybody. The least one can say of the old frame Exchange is that it is far behind the times, has outlived its usefulness and is become an eyesore to the flourishing tobacco market of Hopkinsville. There are now six warehouses here having a good present trade and an excellent prospect for a largely increased business within the next twelve months. With the addition of a large and fertile territory to their field of operation they may confidently hope for a trade exceeding the most sanguine expectations of the founders of this market, and reaching an aggregate of millions of dollars, controlled not by visionary speculation and hazardous advances, but by the inducements of safe and judicious business.

The new Exchange should be a spacious and handsome brick structure, having ample accommodations in its sale room for warehousemen, brokers, samples, and for planters and others attending the sales. The room should be complete in all its appointments and arrangements, with comfortable seats for all, well lighted, warmed and ventilated, a pleasant and inviting resort for the farmers where they can sit at ease and watch the course of the market without weariness. It should be the planters' club room, shelter and general rendezvous during business hours.

Besides the sale room the new Exchange should contain a number of offices for brokers, which would be a source of income to the company. It was suggested that a well-kept lunch room would be well patronized by visitors wanting a dime sandwich or a quarter lunch. All these rooms would command good paying tenants. The cost of such a building is a proper subject for careful business consideration. It would be a mistake to be either niggardly or extravagant in such an enterprise. A lofty air-cast one half of which would be empty rooms, might be fair for those to look at who were not called or to pay for it.

There is no reason, however, to doubt that a moderate percentage on the actual tobacco trade of this market would, with judicious arrangement build a handsome Exchange. Nor is there any doubt that such a building would be a splendid advertising card to invite business. It would be a handsome recognition by the city of the importance of the trade, and the country would be sure to respond as it does to the advertisement which the mercantile trade has built up in the elegant store houses on Main street. These beautiful structures with their costly plate glass show windows invite trade in dry goods and other merchandise. The invitation would be just as powerful in the proportions of a building where the crops are sold which supply so large a part of the funds for the general trade. If to the tobacco crop was added the wheat crop in a general produce exchange the aggregate trade would reach several millions of dollars.

Let the watchword be a new Tobacco Exchange. Our tobacco friends in town and county should at once discuss the project and put it in shape for action. Nothing is wanting but the determination to have this great improvement. The ability and means are at hand. Perhaps it would be more accurate to say that nothing is wanting but the leadership of a few enterprising men to consummate the scheme. This consummation would of itself be a guarantee of the erection of several other greatly needed buildings and general improvements. Roll on the ball.

Miss Minnie Taylor, of Hopkinsville, a charming lady, is on a visit to Dr. J. A. McKee's family. Our society young men should see that she is highly entertained. Caldwell Corlier.

CREAM OF THE NEWS.

The O. V. Road Coming.

The engineers of the Ohio Valley Railroad are coming ahead with the work of permanently locating the line between here and Princeton. The road will run very nearly on the same line made on the first survey for the first half of the distance after leaving Princeton. It has been re-surveyed and located to the Peter Baker place, two miles this side of Cerulean, and thirteen miles from this city. It leaves Cerulean two miles to the north and comes through the lands of H. S. Lander on the west side of the road at or near where it turns to the north at the Baker place, now owned by B. W. Harned. It then runs with the county road to the L. & N. line, about half a mile this side, which it will cross in a cut by treating twenty-one feet above the track. This side of the L. & N. it is understood that the first route will be changed a good deal. The line will probably be located this week and will very likely go nearer Bellevue than the former survey, which was about two or three miles. Of course the question of right of way will cut some figure as the road nears this city and lands become more valuable. About one thousand yards of the road out of Princeton has been graded and the work will be put through without delay if the favorable weather continues. A recent letter from a gentleman in New York, who is posted in the matter, says the attempt of a few dissatisfied parties in this county to question the legality of the late election, will not in any way affect the plans of the O. V. Company to complete the road as early as possible.

Turnpike Stock.

The Board of Directors of the Christian County Union Turnpike Company held a meeting Friday night and decided to issue certificates of stock to those subscribers who had paid the calls made up to date, amounting to 50 per cent. The certificates will be of the par value of \$25 per share, and are now being issued by the Secretary, Mr. S. C. Mercer.

The work of construction has been suspended and no more calls will be made for the present.

Thirteen and one-third miles of pike have been constructed and three neat toll houses with residences have been built. The Fairview pike, 8 1/2 miles, is one of the best roads in the State, and the Palmyra pike will soon be in the same good condition.

The Pole Taken Down.

The Cleveland pole was taken down Saturday under the direction of Councilman Radford. It will be used by the city for kindling wood. About 1,500 feet of lumber was used in the construction of the pole, which was about two feet in diameter at the base and 1 1/4 feet long.

Killed in Caldwell.

A Caldwell county farmer was thrown from his buggy while returning from Princeton Saturday and was so badly injured that he lived but a short while. His name was Henry Adamson.

The Supervisors.

Messrs. R. M. Anderson, R. Y. Pendleton, G. R. Pierce, V. O. Clark, and J. M. P. Pool, the board of tax supervisors, are still in session, this being the ninth day.

Evergreen Lodge, No. 38, K. of P. is just now on a boom. Five applicants have been voted worthy and are now on the road to Knighthood. A celebration is contemplated on Feb. 19, the anniversary of the order, when a number of neighboring lodges will be invited and the third rank conferred on the candidates whose petitions have lately been acted upon. No lodge in the State can do finer work in the Knight's rank than Evergreen. An effort will also be made, to have Knight J. G. Joseph, of Clarksville, come over on that occasion and confer his beautiful and impressive fourth degree upon those who have never taken it.

Some of the accounts sent to the daily papers in regard to the unfortunate tragedy which cost young Dick Gary his life, were shameless misrepresentations. One of these not only made it a case of suicide, but went farther and assigned disappointment in love and quarrels with his father as probable causes. A little more of truth and a little less of the sensational, as well as a little more care in collecting facts, would result in more reliable news being sent out and greater justice done to parties concerned. Young Gary's death was purely accidental and it is hard enough for his parents to bear without having the matter given to the public in a false light by reckless and irresponsible reporters.

Henry J. Stiles has received the appointment of attorney for the L. & N. Railroad at this place. The L. & N. Company always employs the highest order of legal ability to manage its affairs and this selection is a great compliment to Mr. Stiles, who is yet under thirty years of age. He has been practicing law for seven years and is justly regarded as one of the most promising young attorneys in this district. Though young in years he has devoted his time to close study and is one of the best informed and most extensively read lawyers in Hopkinsville. With a strong mind well stored with legal knowledge and possessing the happy faculty of being a close reasoner and at the same time a fluent and convincing speaker, his prospects for future success are of the brightest. His numerous friends will congratulate him upon securing this appointment from the L. & N. Company, which could not have been bestowed upon one who would strive harder to merit the honor conferred. The term is for an indefinite length of time and the position is one of a very lucrative character.

A GARRETTSBURG KILLING.

Newton Helm kills Beauregard Starke Sunday afternoon.

Newton Helm, col. shot and killed Beauregard Starke, col. at Garrettsburg Sunday afternoon. The killing occurred on Esq. John H. White's farm, where Helm lived, and the circumstances as detailed to a Kentuckian representative make it a clear case of justifiable homicide. About two weeks ago Starke went to Helm's house in Helm's absence and cursed and denounced the latter's wife and children and wound up by telling them that he intended to kill Helm on sight. The origin of this first trouble could not be learned.

Sunday afternoon Starke again visited Helm's house, appearing at the gate with a cocked pistol in his hand. Helm was at home and ordered Starke not to come into the yard, but the latter continued to advance, when Helm fired upon him with a gun inflicting a fatal wound. Starke stood for a few moments with his pistol in his hand, after being shot, and then fell and expired. The dead man was the aggressor, and if the version of the affair received be correct, was altogether to blame. Helm surrendered himself and his trial will be held before the local magistrates to-day. County Attorney Payne will be on hand to represent the Commonwealth.

CROSSED OVER.

List of Those Who Have Entered Death's Dark Valley Since Friday.

Cornelia Green, the bright little twelve-year-old daughter of Mr. and Mrs. J. R. Green, Bellevue, died Sunday morning at 10 o'clock, of erysipelas of the face and throat. She had been a great sufferer for ten days. She was a child of much sweetness of disposition and purity of heart. Until she was taken sick, she had boarded in the city with her aunt, Mrs. Wm. Cowan, and attended school at Bethel Female College, where she was a favorite with both teachers and pupils. The stricken parents are overwhelmed with grief at the loss of their first-born, whom they almost idolized. The funeral was preached at the residence yesterday afternoon at 1 o'clock and the remains buried at the family graveyard, at Mr. J. C. Moore's.

Mrs. A. S. Hays, wife of the Ninth Street meat man, died Saturday evening, the 12th inst., of cholera morbus. She was about 40 years of age. The body was taken to Nashville for interment the following day.

Mrs. Mattie Johnson, wife of W. L. Johnson, died at 7 o'clock, p. m., Sunday last, at her home on Jessup Avenue. She leaves a babe three weeks old. The remains were buried at the family burying ground near Cerulean Springs, yesterday afternoon.

Alex Wharton, col., shooting in city limits. Fined \$5.00 and costs, Monday.

Glenn Brane was arrested Friday for fast riding. He was halted by Policeman West on Main Street, who seized his horse by the bridle, pulled Brane from the horse and took a pistol from his pocket in less time than it takes to tell it. He was taken into court at once and fined \$25 for carrying a concealed weapon and \$10 for fast riding. He paid the fines with costs and went home.

Bill Dobson, col., got into a row with some colored women at the old ice factory late Thursday night and a disturbance was raised. One of the women called "police," and officers West and Twyman being in hearing arrived just as Dobson ran away. They gave chase and after firing several shots over him he lay down on the ground frightened half to death and was taken in. The women were arrested the following day.

OPERA HOUSE.

"Pete" Baker the greatest of them all comes next Monday Jan. 21st for one night only.

The Louisville Courier Journal: "Pete Baker drew two packed houses at Harris' theatre yesterday in 'The Emigrant.' The play is well known and needs no description. Pete was himself—that is to say he was as clever as ever in his impersonations of the German emigrant, and his singing was received with great manifestations of pleasure. His character of Aunt Jeannine, an old negro woman, was especially clever. Little Grace Euler received a warm welcome, and performed her part remarkably well. She is something of a phenomenon, being not seven years of age, but as graceful as many who have had more training than she has numbered years.
